

Fastest Job Placement in TFC History!

Jason graduated from the Film Arts & Production Program in April 2009.

He started his job search, using our proprietary **Career Start Program**.

He applied for an internship with a major broadcaster and was told he would be contacted in 7-9 weeks with their decision.

However when they looked at his resume, they saw he was a graduate of **Toronto Media & Film College**. And, they saw he had worked as an intern on a

prime time TV series while he was a student at our College.

He received a job offer 5 hours after he dropped off his resume!

Jason came to our College with a dream – to work in the TV industry. We showed him how to turn his dream into a goal, develop a plan and work the plan. He is now a working professional in the most exciting industry in the world.
